Areas of Greatest Need:

This region is one of the greatest impacted areas in the country and County staff have been tracking foreclosures and notices of default since early 2008. California is a non-judicial foreclosure state. The foreclosure process begins with a recorded Notice of Default (NOD), which is a public notification that the borrower has fallen behind in the monthly mortgage payments. If the default is not cured, or the loan renegotiated or replaced, the NOD is followed by a Notice of Trustee's Sale (NOTS) after a minimum of three months. The actual Trustee's Sale cannot occur less than 20 days after public notice. The Trustee's Sale is a public auction, at which anyone may bid, including the lender and any junior lien holders. The foreclosure process may be stopped if the default is cured 5 days in advance of the sale date. If no one bids, and the foreclosure process was not stopped, title (ownership) of the property reverts to the lender as REO property (Real Estate Owned). The typical foreclosure process takes at least 117 days in California. There were a total of 20,366 properties taken all the way through the foreclosure process in San Bernardino County from July 1, 2007 through September 30, 2008. In relation to all housing units as estimated by California Department of Finance, this represents 2.97% in San Bernardino County. According to an article published in The Wall Street Journal (July 29, 2008) the Inland Empire region has suffered the largest decline in median home prices since prices hit their peak, with an estimated decline of 37%. In a Forbes article published on October 15, 2008 ("Where Recession Will Hit Hardest") the Riverside-San Bernardino-Ontario MSA was rated the worst area in the country. More than half of the homeowners in the area (62%) owe more on their homes than their homes are worth. The median homeowner almost owes more to get their home "above water" than the median worker makes in a year. The median equity is more than a negative \$33,000. Rising unemployment rates at 9.2% are an added elem

Distribution and and Uses of Funds:

HUD has compiled a set of data at the Census Tract Block Group (CTBG) level for the entire country. The County compiled this set of data, which included low- and moderate-income eligible, foreclosure risk, home price decline, unemployment rate, percentage of high-cost sub-prime loan rate, predicted 18 month foreclosure rate, and vacancy rate. The data for the County was evaluated in a four step priority ranking for those CTBGs most at risk. These areas, defined as "Eligible Targeted Communities," are those census tracts, exclusive of regular CDBG entitlement cities, that have the "greatest need" by utilizing the HUD NSP data sets that include: (1) greatest foreclosure risk, (2) highest percentage of homes financed by a sub-prime mortgage, (3) areas likely to face a significant rise in the rate of foreclosure, and (4) census tracts predominantly low- or moderate-income. For each category, the County assigned points based on severity of the foreclosure crisis and created a "Total Severity Score" (TSS) for all census tract block groups (CTBGs) for the entire County, with the exception of CDBG entitlement jurisdictions. The County only used the standardized data supplied by HUD in the calculations. The procedure assigns points to each of the four variables as follows: (1) Foreclosure risk (based on percentage rate): Maximum of 3 points if 8%, 1 point if 9%, 2 points if 10%, 3 points (2) High cost (sub-prime) loan rate: Maximum of 3 points if >= 40% and < 50%, 1 point if 99, 2 points if 10%, 3 points (2) High cost (sub-prime) loan rate: Maximum of 3 points if >= 10% and < 12%, 1 point if >= 12%, 2 points (4) Low- or Moderate-Income: Maximum of 1 point if YES, 1 point if NO, 0 point The sum of the points awarded for all categories equals the "Total Severity Score" (TSS) for the CTBGs. Those CTBGs with a minimum TSS of 3 (which covers approximately 47% of the County administered area) are determined to be Eligible Targeted Communities and therefore eligible, though not guaranteed County NSP funding for the proposed pr

factors, such as the number of CTBGs within a community, some communities may not be identified as an Eligible Targeted Community (e.g., Pioneer Town) even though all CTBGs received a TSS score of 3 or greater because there are only two CTBGs versus larger geographic areas that had many CTBGs with TSS scores above 3 (e.g., Barstow). The County will distribute NSP funds to the areas of greatest need, including those with the greatest percentage of home foreclosures, with the highest percentage of homes financed by sub-prime mortgage loans, and identified by the County as li

Distribution and and Uses of Funds:

kely to face a significant rise in the rate of home foreclosures. Accordingly, the County will meet the requirements set forth in Section 2301(c)(2) of HERA when expending NSP funds. Most of the activities eligible under the NSP represent a subset of the eligible activities under 42 U.S.C. 5305(a). Certain CDBG-eligible activities correlate to specific NSP-eligible uses and vice versa. The County will ensure that 100 percent of NSP funds will be used to benefit individuals and households with income

Activity Description:

The purpose of the NSP-I Program is to purchase and rehabilitate foreclosed or abandoned rental housing to primarily benefit households at or below 120% of area median income. The County would use NSP funds to purchase and rehabilitate foreclosed or abandoned rental properties in Eligible Targeted Communities. Properties could be purchased for the San Bernardino County Housing Authority's own portfolio or the County could assist non-profit or for-profit partners in acquisition and rehabilitation. The form of the County's assistance would be a grant or subordinated mortgage. The County would make every effort to leverage these investments, loans and/or grants with FHA or other first mortgages, tax credit proceeds (where possible) and other subordinate financing such as AHP, state funds and its own subordinate mortgage financing. Long term agreements or deed covenants would be recorded to ensure long term affordability (minimum term of 15 years, expected term of 55 years). Subject to approval by the Housing Authority's Board of Directors, the Housing Authority is expected to be the County's primary partner for this activity. Tenure of beneficiaries-rental or homeownership: Rentals, but long-term with affordability covenant. Duration or term of assistance: Long-term subordinate loan and/or grant. Description of how design of the activity will ensure continued affordability: County would record long-term (minimum 15 years or term of loan, up to 55 years) rent regulatory agreement or covenant. Discount rate: Average 1% as set forth in Section 2301(d)(1) of HERA and described in Section Q of HUD Docket No. FR-5255-N-01. Range of interest rates: 0-7%, but non-current payment so as to maximize leverage from first mortgage, tax credits and other subordinate financing.

Location Description:

This project is located in the Barstow, California.
